

CASAMANCE

# CASAMANCE

*For this Spring-Summer 2023, Casamance is embarking on an adventure featuring materials, colours and formats.*

*Inspired by open spaces and shimmering skies, the wall collections appear, as if sculpted by the light. The opulence of velvet is combined with the elegance of metallic voiles. Plant-based materials are ideal for astonishingly varied textures and geometric layering. Linen, alpaca and wool cover us with their soft shades and the panoramic wallpanels open up new horizons.*

*Casamance transforms materials on the walls, bringing together the authenticity of natural fibres and innovative techniques, joining the exquisite with the raw luxury of nature.*

# JASPER

## Collection

WALLCOVERINGS | Textile

*Inspired by wide open natural spaces, from the rockies to the Great plains, JASPER envelops us with the warmth of its materials and the softness of its colors.*

*This unique collection combines linen, alpaca, wool and cotton and enhances their natural look with the glow of viscose yarn. Woven less than 30 kilometers from Casamance headquarters JASPER comes to life using traditional Jacquard loom techniques. The light is captured in the meandering woolly threads and the spectacular landscapes are transformed on the walls.*
