CARE INSTRUCTIONS FOR CARPETS

Our products are high quality, hand made items. Therefore they need accurate care in order to preserve their splendor along the time.
We recommend **dry cleaning only** in professional laundry.
Silk or polyfibers carpets are very difficult to clean and should be done only professionally, wool is easier treat so delicate water cleaning is acceptable.
For everyday care we suggest to vacuum at the lowest power.
In case of limited stains, dirt can be immediately soak with cold water and mild soap before sending to a professional cleaner.

CARE INSTRUCTIONS FOR OUTDOOR CARPETS

Our products are high quality. An easy care will preserve their splendor along the time.
Clean your carpet regularly to prevent stack of dirt; vacuum at medium power without a beater, act gently on borders not to weaken the fibers; do not use carpet cleaner. Do not pull loosen threads, cut them off.
In case of limited stains, dirt can be wiped off with a clean rag before soaking with warm water and soap.
Professional cleaning if necessary.
