JIUN HO

THE BRAND

Origami Sconce, Kasba Chair, Hwange Table

THIS IS JIUN HO

Interiors · Furniture · Light · Textile

Jiun Ho is a mix of many things. A mix of two worlds. Of Malaysia's Kuala Lumpur, where he was born, and of America's San Francisco, his adoptive home of many years.

A mix of desires. Of a lifelong urge to travel to faraway places, and of a career focused solidly in the pull towards home.

A mix of passions: Of a creativity that manifests in furniture, lighting, textile and interior design, all which inhabit the world of what is, and of an imagination that lives in the silence of daydreams and the world of what could be.

All are embedded in the quietly elegant aesthetic of Jiun Ho, Inc. where an awareness of what matters most to Jiun is evident everywhere in his collections. It matters to create beauty and to be inspiring. It matters to be true to foundational design principles of restraint, simplicity and attention to detail, and to use materials that speak for themselves. And always, it matters to tell a story within a product, to Jiun that is the language of design, and it transcends time and place.

Using images from the 1000s of photographs, taken from the 100+ countries he's visited, Jiun translates inspiration to products. At their core, each product is about texture, how they feel to the touch, how we respond to the richness of their feel.

Welcome to Jiun Ho, Inc, where since 2000, we've been finding inspiration in the beauty of nature, and using it to design diverse interiors and products for a diverse world.
