The Magazine of Architecture
The Arts & Distinctive Design

- 1) Created by **Tara Dixon**, this **Wax Glass Pendant-Lens** astounds both in appearance and in function. Made from cast glass, the viewer's eye is drawn to the intricate and masterful of the lighting process.
- 2) Designed for the 25th anniversary of **Holtz Hut**, **Alison Bergau's Silver Line Pendants** retain Bergau's signature complexity and elegance. These hand-blown fixtures are limited edition—only fifty copies were produced.
- 3) The **Sunset Ceiling Light**, designed by **McLewen Lighting**, is an exercise in function and beauty. Encasing an industrial feel, the pendant's blown glass exterior is recessed in a cast cage.
- 4) **Marjorie Skouras'** playful lighting takes an architectural turn with her **Honeycomb Lantern**. While beautiful in white, this piece can also provide a subtle touch of color in fourteen other glass options.
