### CHILDLIKE

### WHAT'S IN A NAME

*Maw* cribs are American made with sustainable materials. You can customize the design panel with the child's name. *Maw* is inspired by the Zen concept *Ma*, which teaches that there is no difference between us and our environment.

A sleek, toddler bed by *Oayf* (French for egg), is made in Europe with a solid birch base, non-toxic water-based finish and environmentally friendly MDF wood fibers. Both at Style Child, Hilcrest, 619/220-0480.
