primary colors," says McQuinn. "So
there is a lot of red and blue furniture
around. Those colors are reflective of
more simple times, and they are easy
to work with."

With flags, bunting, and bunches
of blue hydrangeas or red geraniums,
exterior can be decorated from a
parade of motifs. But Los Angeles
designers Jaime Rummelfield and
Ron Woodson agree that the ultimate
decoration is a good fireworks display.
Rummelfield watches the sky light
up from the beach, and Woodson
enjoys multiple shows from his
panoramic view in the hills. "Behind
me are the fireworks from Pasadena,
and in the front, the show at Marina del
Rey," he says. Hats off for the flag!

The 13 stars in the first flag, sewed in 1776, were set in a circle so that no one colony would be viewed as more important than the others. A vexillologist is an expert on flags.

Keeping Cool

Linens, with Es kosa, say
