Known for their timeless architectural hardware, SA Baxter's newly launched lighting collection is inspired by the high-quality, cutting-edge designs that have come to define the company. The Modern Elliptical sconce and the Modern Rectilinear sconce come in polished nickel or light antique brass finishes to coordinate with and enhance many different aesthetics. Manufactured in New York's Hudson Valley, the soon-to-be-iconic lighting combines impeccable artistry with contemporary elegance. sabaxter.com

Inspired by the breezy sanctuary of St. Barts, Christian Liaigre's Consulat chair is an updated take on the classic director's chair. Designed in creamy linen and leather, the piece has the sophisticated lines that are trademarks of the brand. The unique tilt in the back makes it the ideal chair for an alfresco dining space or casual lounge seating. Christian Liaigre is available at the Pacific Design Center showroom in Los Angeles owned by Thomas Lavin. christian-liaigre.fr, thomaslavin.com —Miranda Agee
