ART IN DESIGN

Liaigre celebrated new pieces at their showroom in Paris (below) during Deco Off surrounding Maison et Objet. *Interiors* contributor Arianne Nardo (above, far right) was in attendance, along with Thomas Lavin, Jo Gibbs, Karen Marx and Olivier Pechou.

The design of the A12 table by Gary Hutton, available through Thomas Lavin, was inspired by the small triangular shape that forms when two people turn slightly toward one another to have a conversation. Shown in polished bronze with clear lacquer. Available in various finishes, fabricated in California and completely customizable. thomaslavin.com
